THE VOYAGE

The shores of the titanic ocean,
Few feel the breeze as commotion,
Few feels as one's salutation;
Ye all, ready for sail to discover the unspoken?
Thou make thy mind open,
Quite lies in voyage, the tales and treasures to hopen;
Our barquentines are set on sail,
Thee begin the Chaucer's Canterbury Tale(s),
Then hearing Shakespeare's Hamlet, we wail;
Donne's Ecstasy about love and soul,
The Coy mistress hath her Marvell in Humber stroll,
With Keats' Thing of Beauty, romance found its whole;
Shelley, Tennyson and poetries of Blake,
Passing the long nights by staying awake,
That we never felt like taking a break;
All the dramas and poetries to hear,
The sky seems to look so clear,
Stars and constellation started to appear;
Dost, thou know to describe this wonder?
There's Treasure Island ten miles yonder,
We all wish to step in and wander;
The treasure is found and heard,
Down lied the pieces of clay sherd,
Curiosity and adventure were what the voyage spurred!

NATURE

Nature! Nature! Nature!
I wonder how God has build
this beautiful creature!
Whenever I gaze at you
I stick like a glue
The ray of the Sun at every dawning;
The chirping of birds every morning;
The universe is walking with me,
In beauty it walks before me,
Rustling whistling leaves
turning breeze into speech
Dance with the waves,
Move with the Sea
The rhythm of the water
set my world free
Nothing is as beautiful and
refreshing as Nature!
I am always ready for an
outdoor adventure!

THOUGHTS

Thoughts are nothing but the experience we had so far. Let me tell you an instance, right now, if someone asks you “*can you fly?*” your immediate reply will be ‘NO’. Again if someone questions, “*Can you walk?*” your reply will be definitely ‘YES’. It means flying is not in your experience so that you suddenly said it can’t be done but on the other hand, Walking is still in your experience, and thus your reply is positive.

If your yesterday’s wish doesn’t happen, you will decide that it will never happen in your lifetime. No, itsnot a like that. If you wish to know what and all that happened in European countries from India before 100 years , its plausible but today we’ve television , mobile phones, and everything in everyone’s home which broadcast everything that happens all over the world and now we are able to see things whenever and whatever we want. This happens because of thoughts in one’s mind who has a steadfast and a burning desire to know about what’s happening around and that becomes reality now. The same applies for *Elon Musk’s, Meta verse*.

“Thoughts can make your life as well as break your life”

There is an old story on how thoughts can kill your life .Once a man was going for a long walk.Fortunately, he stepped into a heaven. At the same time he was exhausted so he thought of taking rest under the shade of a big tree. Having a beautiful vibe, he thought of having a good appetizer. The moment he asked for it, food appeared. He ate everything and he thought it would be nice if he had a final drink to fulfill the meal. Then drink appeared.

Drinking people never ask questions. He had a nice drink and then he thought of taking rest in a good, cosy, luxurious bed. Then appeared a spongy bed appeared in front of him. On seeing this he got scared. Still now he was not aware of the fact that he was sitting under the wishing tree i.e., Kalpavruksha. he thought, "How is it possible to get everything in front of me, whatever I ask for?" then he thought it might be devils place. He visualizes that he is being killed by the devils. Then the devils appeared and killed him. Therefore, the mind itself is a Kalpavruksha. If you think good you will manifest good things. If you think of bad or evil things, you will definitely manifest bad things in life.

“GOOD THINGS BEAR GOOD FRUITSBAD THINGS BEAR BAD FRUITS”

Thoughts make things.

WHAT IS NATURE?

Nature is not about the five elements
Nature is not about the plants & animals
Nature is not about the bushes and shrubs
Nature is not about the clouds and comets
Nature is not about the River and Stream
Nature is not about the storms and wind
Nature is not about the snow and soil
Nature is not about the sun and moon
Nature is not about the rain and rainbow
Nature is not about the caves and canyons
Nature is not about the bays and beaches
Nature is not about the cliffs and crystals
Nature is not about You and Me

Then what is Nature?

Nature is all about the way we nurture ourselves,
And the nurture in us will protect the mother nature.
